## **Mt Little Dick**

The old fire tower at Mt Little Dick (stop it... I can hear you sniggering), which is near Deptford in East Gippsland, is being proposed for heritage listing.

It's one of the last two remaining wooden fire towers built by the Forests Commission. The other is the "big tower" in the Mullungdung State forest which is in poor shape.

Stringer's knob and Mt Nowa Nowa were both lost in the 2019/20 bushfires.
